

BIOEMTECH

Your Imaging Partner

BIOEMTECH

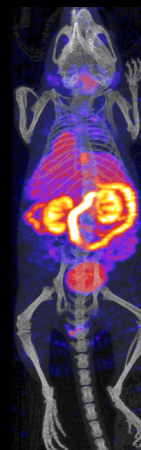

Oncology

Non invasive assessment of successful drug delivery and therapeutic efficacy
EU project: BreastCaRANKL

Gold NPs

In vivo evaluation of contrast & therapeutic agents with microCT
EU project: nTrack

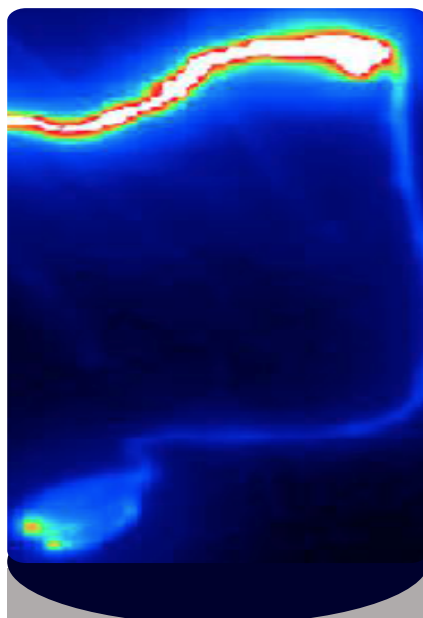

Cardiology

Non invasive monitoring of cardiac pathologies and nanoparticle based therapy
EU project: CUPIDO

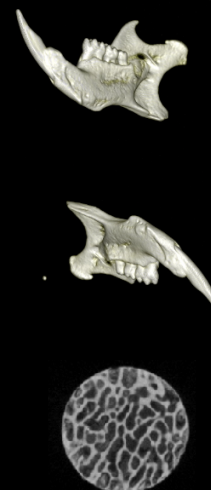

Regenerative Medicine

Non invasive evaluation of therapy schemes and healing processes
EU project: VIVOIMAG

Nanoparticles & Plants

Exploitation and application of new imaging approaches in agriculture for nanotechnology

Materials & Samples

Non destructive internal evaluation of materials and structures with 50um resolution
